

WE ARE HIRING

OHS TECHNICAL SPECIALIST

We are seeking an individual with experience and knowledge in Occupational Safety & Health to join our team as an **OHS Technical Specialist.**

Focus Areas: LOTO • Spillage Control & Response • Chemical Handling & Storage • Product Safety & Technical Solutions

KEY RESPONSIBILITIES

- Collaborate with sales teams to ensure product and course offerings meet market needs and regulatory updates.
- Visit client sites (factories) to identify safety hazards, compliance gaps, and risks.
- Conduct client needs assessments; propose customized training packages and technical safety solutions aligned with site-specific risks and regulatory requirements.
- Conduct product demos, webinars, or presentations detailing the value of regulatory compliance and accident prevention
- Present OHS solutions and product applications to clients.
- Prepare technical reports, findings and corrective action recommendations.
- Develop Safe Work Procedures, checklists, inspection forms and OHS documentation.
- Support the Marketing Team in safety programs , awareness campaigns, seminars and product demonstrations.
- Keep abreast of products, technologies, and safety trends; recommend enhancements to the company's portfolio.
- Prepare formal proposals, pricing quotations, and contract terms
- Focus Areas: LOTO • Spillage Control & Response • Chemical Handling & Storage • Product Safety & Technical Solutions

REQUIREMENTS

- Diploma or Degree in Occupational Safety & Health, Safety Management, Engineering or a related field.
- Minimum 2–3 years experience in OHS sales, technical sales, or safety consulting (industrial product/training sales preferred).
- Knowledge of LOTO, chemical safety, emergency response and workplace safety.
- Ability to prepare SOPs and technical reports effectively.
- Strong presentation and client communication skills.
- Willing to conduct site visits and field work.
- Able to work independently and collaborate with Sales, Marketing and Technical Teams.
- Possession of a valid driving license and own transport is an advantage

Preferred Attributes

- Understanding of local and international safety regulations (DOSH Malaysia, OSHA, ISO 45001).
- Existing network within industrial, manufacturing, or government sectors in Malaysia.
- Experience in OHS, safety consultancy, inspection, audit or industrial safety is an advantage.

Employee Benefits :

- Basic Salary, EPF, SOCSO, EIS, Yearly Performance Bonus
- Sales Commission, Allowance & monthly Incentive
- KPI/OKR Reward Allowance
- 5 working days
- Oversea & domestic company trip
- Training provided (Internal and external)

Join us and be part of a team delivering practical OHS solutions, technical advisory and safer workplace systems for our clients.
